### About us

We're a tight-knit team of four core members based in London, with over 4 years of experience. Together, we've created over 25 games, all fueled by our love for great visuals and design.

Our mission is simple: to allow developers to fully concentrate on gameplay without the burden of worrying about art.

### Our Services

We offer both subscription and contract services. Overall, our subscription services are superior and more cost-effective than contract projects.

With our unlimited plans, you get access to everything related to art and design, including 3D modeling, environment design, UI design, and more.

Once you're subscribed, you can request new projects via our Trello board and expect delivery within 6–48 hours. You can also ask for revisions as many times as necessary. Plus, you have the flexibility to pause and resume your subscription at any time. For example, if you purchase a one-month subscription, you'll have a total of 31 days of service. You can use these days consecutively or intermittently, pausing and resuming as needed.

### Our Pricing

We offer low and affordable prices without compromising on quality. Our expertise in various skills further enhances our competitive pricing.

- Basic Plan: \$450 per month or \$1200 per 3 months. Includes 3D modeling and UI design.
- Pro Plan: \$950 per month or \$2570 per 3 months. Includes 3D modeling, UI design, animation, and Unity setup.
- Studio Plan: \$1450 per month or \$3900 per 3 months. Includes everything from the previous plans, plus creative ads and assistance with development.

For contract projects, our prices are as follows:

- Full UI design (up to 10 pages): \$300
- 3D game art: \$500
- Full game art: \$800

### FAQ

- **Can I pause my services?**  
Absolutely! You can pause them for as long as you need.
- **Can you help with development?**  
Yes, just shoot us an email for more details.
- **Can I create a custom unlimited plan?**  
Of course! Get in touch via email for personalized options.
- **Are there any design areas you don't cover?**  
currently, we don't handle complex 2d designs like characters
- **What if I'm not happy with the design?**  
No problem! We'll keep revising until it's exactly what you want.
- **How quickly will I get my designs?**  
Typically, within two days or less. But complex requests may take longer.
- **Is there a limit to my design requests?**  
Once subscribed, you're able to add as many design requests to your queue as you'd like, and they will be delivered one by one.
- **Why not hire a full-time designer?**  
Good question! For starters, the annual cost of a full-time artist now exceeds \$30,000, plus benefits. Aside from that, you may not always have enough work to keep them busy at all times, so you're stuck paying for time you aren't able to utilize.
